## CAPITAL ALLOWANCES

### Plant and machinery - Annual Investment Allowance (AIA)

The AIA applies to expenditure incurred on or after 6 April 2008 (1 April 2008 for companies). The AIA gives a 100% write-off on most types of plant and machinery costs, including integral features and long life assets but not cars, of up to £50,000 p.a.

Any costs over the AIA fall into the normal capital allowance pools at either 10% or 20%. The £50,000 limit may need to be shared between certain businesses under common ownership.

### Other plant and machinery allowances

The annual rate of allowance is 20% from 6 April 2008 (1 April 2008 for companies). A 10% rate applies to expenditure incurred on integral features and on long life assets on or after 6 April 2008 (1 April 2008 for companies). Long life asset expenditure brought forward receives the 10% rate.

A temporary 40% first year allowance may be due for certain expenditure exceeding the AIA incurred in the 12 month period beginning on 6 April 2009 (1 April 2009 for companies). A 100% first year allowance may still be available on certain energy efficient plant and cars.

### Cars

For expenditure incurred on cars on or after 6 April 2009 (1 April 2009 for companies), costs will generally be allocated to one of the two plant and machinery pools. Cars with CO<sub>2</sub> emissions not exceeding 160gm/km will receive a 20% allowance p.a. Cars with CO<sub>2</sub> emissions over 160gm/km will receive a 10% allowance p.a.

### Industrial and agricultural buildings and hotels

The annual rate of allowance is 2% (3%) from 6 April 2009 (1 April 2009 for companies). Special rules apply for accounting periods straddling these dates.
